## Why Reflexor?

Noise will travel through any gap or crack. Reflexor is an easily installed solution to stop noise and odour issues.

Install Reflexor using standard T50 staples ensuring a solid barrier with 1" overlap on seams and 4" on ceiling, floors and corners. Install with gold side facing out.

## Technical Specifications

Roll Size: 4' x 50' (1.22M X 15.24M)

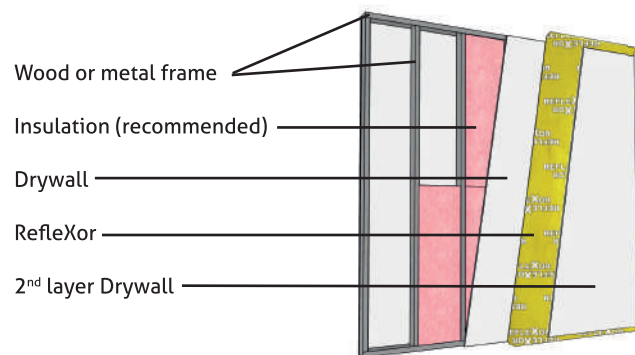

Coverage: 200 ft<sup>2</sup> (18.58M<sup>2</sup>)

Thickness: 0.039" (1.7mm)

100 % recycled polyester fibre

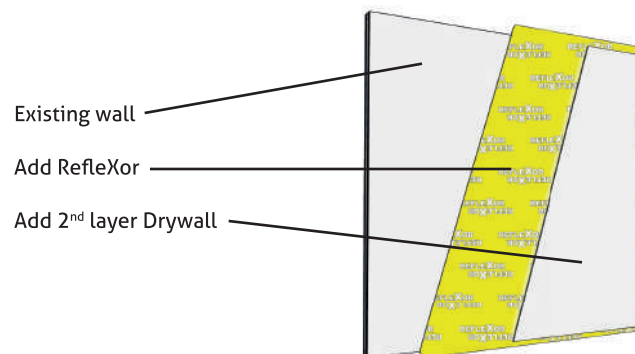

## Recommended Assemblies

### New Construction • Walls and Ceilings

**Reflexor Installs between two sheets of drywall acting as a decoupler for noise and odour barrier**

### Retrofit Construction • Walls and Ceilings

For extreme soundproofing, add **SONOpan**

**SONOpan** with **Noise STOP Technology** absorbs a wide range of sound frequencies. The 4' X 8' ¾" panels are installed behind drywall to create an additional layer of soundproofing.
